The ANALYTIC media brand is the indispensable source of information for experts and decision-makers in the food technology industry. We set the tone, also in terms of digital transformation. For good reasons:

Digital information offerings have long since overtaken printed media in terms of usage intensity. On average, B2B decision-makers spend more than two hours a day online. One of many reasons for this is that most B2B decision-makers today are Millennials. Growth in this age group has increased exponentially in recent years. In addition, a good half of the B2B target group uses mobile devices to search for information. Demand for digital trade media is also being sustainably strengthened by trends such as home office and mobile working.

Innovative - Interactive - Multimedia

The ANALYTIC E-Mag is a completely new media product. The world of the important and financially strong analytical industry is presented in a unique way. The E-Mag is the informative must-read for experts and decision-makers in the process industry. It offers advertisers fascinating opportunities to draw attention to their company, products, solutions and services, generate leads and optimize their inbound marketing.

To read, watch, listen and marvel at, to present and communicate. To click, scroll, tap and swipe, using desktop, notebook, tablet and smartphone. The ANALYTIC E-Mag is a purely digital medium that combines high-quality content with state-of-the-art design. For editorial and advertising purposes, the ANALYTIC E-Mag offers a wide range of possibilities beyond the classic text-image presentation, such as white papers, videos, animations, slideshows, podcasts, videocasts and more.

Above all, the ANALYTIC E-Mag impresses with its excellent usability: the loading time is fast and the navigation is intuitive. The individual articles are clearly structured, the content is up-to-date and interlinked with social media, and the links make it immediately clear to users where they lead. Another significant advantage is that we can track user behavior. In this way, benchmarks such as duration of stay and click-through rate can also be applied to ads, banners and other advertising formats.

The E-Mag impressively demonstrates what a digital trade magazine can do in 2021. Reader-friendliness is the top priority: The high-quality journalistic content is presented in a visually sophisticated way and is simply fun to use, especially on a tablet. I therefore look forward to each new issue.
